

SERVICE OVERVIEW

Full Deep Cleaning

A more detailed example for homes needing extra reset time, buildup removal, or a first-time clean.

WHAT IS INCLUDED

- Includes regular cleaning items plus extra detail on door frames, switch plates, outlet covers, and baseboards.
- Dust and wipe baseboards when needed, and wipe reachable blinds when practical.
- Clean reachable interior window glass, sills, tracks where accessible, and sliding-door glass and track.
- Give kitchens extra attention on counters, backsplashes, cabinet fronts, sink areas, and appliance exteriors.
- Detail bathrooms, including toilet, sink, tub, shower, vanity, mirrors, and cabinet fronts.
- Remove reachable cobwebs and detail ceiling fans and light fixtures without taking fixtures apart.
- Vacuum, sweep, and mop interior floors, with extra passes where standard products can safely help.

NOTES FROM WENDY

- Deep cleaning focuses on heavier buildup and detail work, not restoration or repair.
- Interior appliance cleaning can be added when selected before the visit.
- Cabinet finish matters. We use soap and water first, and only use degreaser when the surface can safely handle it.

NOT INCLUDED OR CONDITION-DEPENDENT

- Cleaning is limited to surfaces within safe reach of an 8-foot height limit or a standard step ladder.
- Exterior windows, inside AC vent grilles, microwave filters, toilet tanks, and light fixtures with plastic covers are not included.
- Vertical blinds are dusted only when safe. They break easily and are excluded from detailed cleaning.
- Some hard-water stains, mildew, paint, nail polish, stickers, and residue may not fully come off with normal cleaning products.
- Wall marks are spot-cleaned when possible. We stop if paint begins to lift.

Final scope and price depend on the service level, selected add-ons, home condition, and appointment notes.
